

API KEYS FOR NODE-RED SERVICE

TASK: configure the connection security and create API keys that are used in the Node-RED Services for accessing the IBM IoT Platform.

The screenshot shows the IBM Watson IoT Platform interface. The top navigation bar includes the IBM logo and a user profile for 'jayeshu514@gmail.com' with ID 'cqfdow'. A '+ Generate API Key' button is visible in the top right. The main content area displays a table of API keys with columns for Key, Description, Role, and Expires. Two results are shown:

Key	Description	Role	Expires
a-cqfdow-1xu0msam1o	API Key for the device simulator	Standard Application	-
a-cqfdow-gp5njtfaci	NodeRed link	Device Application	-

The second key is selected, and its details are shown in the 'API Key Information' section below:

API Key Information		Access Control/Permissions	
Key	a-cqfdow-gp5njtfaci	Last Edited By	jayeshu514@gmail.com
Description	NodeRed link	Expires	Never
Date Added	19 Nov 2022 00:13		
Last Update	19 Nov 2022 00:15		

A status message at the bottom right indicates '1 Simulation running'.
